4.12 PRIMUS AFRICA may, from time to time in its absolute discretion, withdraw the whole or any part of any of its services on a temporary or permanent basis.

5. LEVERAGE

5.1 Leverage obtainable in CFDs trading means that a small deposit or down payment can lead to large losses as well as gains. It also means that a relatively small movement in the markets can result to a proportionately larger movement in the value of your investment and this can work against you as well as for you. CFD Transactions have an inherent risk and you should be aware of what the implications of this are.

5.2 Leverage restrictions may apply on certain products or jurisdictions as it is imposed by the relevant industry practices or regulatory requirements accordingly. In addition, it should be noted that the Company will continuously monitor the Leverage applied to Clients' positions and reserves the right to amend the Account's Leverage depending on the Clients' trade volume and trading patterns.

5.3 The Client thus accepts, acknowledges and understands that the automatic reduction of Leverage in her Account could result in the Account Equity falling below the updated Margin requirements, which could result in a Margin Call or Stop Out. The Client is therefore strongly advised to maintain appropriate amount of Margin in his Account(s) at all times in the event of an automatic reduction of the Account's Leverage.

5.4 The Company may also add to or change its Leverage Limitations at any time without prior notice to be given to Clients.

6. MARGIN TRADING

6.1 CFDs are margin products and the transactions related to them will be done on Margin. This means that the Client must supply a specified initial Margin, on agreement, of the overall Contract value.

6.2 If the Account Equity falls below the Margin requirement, the Trading Platform will trigger an order to close all open positions. When positions have been over-leveraged or trading losses are incurred to the point that insufficient Equity exists to maintain the current open positions, a Margin Call will result, and open positions will need to be liquidated.

6.3 The Margin Call process is entirely electronic and there is no discretion applied from the Company as to the order in which open trades will be closed.

6.4 It is strongly advised that Clients maintain the appropriate amount of Margin in their Accounts at all times. Margin requirements may vary based on Account size, simultaneous open positions, trading style, market conditions and the discretion of the Company.

6.5 The Client thus accepts, acknowledges and understands that:

- The Company does not check whether the Transactions of this nature are appropriate to his financial situation;
- Before deciding to trade on Margin he should carefully consider his investment objectives, level of experience and risk appetite;
- The Company sets freely the amount of Margin, the assets that may be used as collateral and the extent of any collateral such assets may provide;
- All the Client's assets are therefore blocked and pledged in this connection;
- The Company may also change its rates of initial Margin and/or notional trading requirements at any time without prior notice, which may result in a change to the Margin the Client is required to maintain;
- Taking into consideration the low Margin normally demanded for these Transactions, price variations in the underlying asset may result in major losses, which could significantly exceed the investment and Margin deposit committed by the Client;
- The Client may be required to provide a Margin at very short notice to avoid the risk of having his positions closed and realizing a total loss;
- If the Client fails to comply with a request for additional funds within the time prescribed, the position(s) may be liquidated at a loss and the Client will be liable for any resulting deficit;
- In certain cases, price changes may be so drastic that the Client's positions may be closed with out any period allowed for him to restore his Margin;
- The Company provides the Client with online access to enable the Client to monitor his Margin requirement at all times;
- PRIMUS AFRICA is not responsible to notify the Client when there is a Margin Call on his Account;
- The Margin Calls are made by the Company directly through the online Trading Platform only and the Client has the possibility to see on his Account the existing assets and Margins.
- During the time period from 23:50 to 00:10 server time increased spreads and decreased liquidity can take place due to daily bank rollover. In case of inadequate liquidity/spreads during bank rollover, widened spreads and excessive slippage may occur. Also fully hedged accounts might also experience stop-outs due to increase in spreads which leads equity to go below zero, and hence trigger a stop out.

7. RISK WARNING

7.1 The Client unreservedly accepts, acknowledges and understands that CFDs trading:

- is highly speculative;
- carry a high level of nancial risk, as they are subject to excessive price fluctuations which may cause substantial losses;
- in the case of CFDs with underlying asset a virtual currency, there might be sudden changes in prices of certain instruments. This can happen during economic events or market announcements or geopolitical events, news, or even due to adverse media or fake news. Gaps can occur when markets open or close or even during normal trading hours. If the market is closed when these factors occur, the opening price of the underlying asset can be substantially different from the closing price, giving you no opportunity to close your trade in-between. Pricing gaps can result

in losses. Therefore, CFDs on virtual currencies may be subject to large price fluctuations and in some instances, due to the early stages of their lifecycle, they may lose entire value.

- the losses may include all of the Client's investment and also any additional commissions and other expenses;
- is only suitable for persons who are able to cope with the associated risks by bearing the financial losses;
- the Company does not guarantee the capital of the Client's Account or its value at any time or any money invested in any Financial Instrument;

7.2 When trading in CFDs, the Client is trading on the outcome of the price of an Underlying Asset and that trading does not occur on a regulated market but over-the-counter (OTC). The Client accepts that PRIMUS AFRICA is the only execution venue, which is a non-regulated market.

7.3 Since virtual currencies are trading on various exchanges worldwide (non-centralized), and since we derive our pricing from certain exchanges, our pricing might be significantly different than prices from other exchanges. You should understand the above, and maintain your account balance accordingly, knowing that our prices can be different from prices observed elsewhere.

7.4 PRIMUS AFRICA shall not be responsible for any loss arising from any investment based on any recommendation, forecast or other information provided. Any opinions, news, research, analyses, prices, or other information contained on this Website are provided as general market commentary, and do not constitute investment advice. The Company will not accept liability for any loss or damage, including without limitation to, any loss of profit, which may arise directly or indirectly from use of or reliance on such information.

7.5 The contents of any report provided should not be construed as an expressed or implied promise, as a guarantee or implication that Clients will profit from the strategies herein, or as a guarantee that losses in connection therewith can, or will be limited.

8. CLIENT'S ACCOUNT / KYC

8.1 The Client shall open an Account with the Company to be able to trade in CFDs offered by the Company.

8.2 The Client does not intend to use her Account for payment of transactions to third parties.

8.3 The Client understands that no physical delivery of a CFD's underlying asset that he has traded through his Account shall occur. All CFD contracts can only be settled in cash. The prices of these instruments are derived from the underlying assets or currency pairs related to these CFDs, but in no way you are acquiring any right for delivery of the underlying asset/currency. Moreover, engaging in trading CFDs with underlying asset a virtual currency pair, and due to high volatile nature of these pairs, you might be exposed to higher risks than trading the assets themselves or trading other CFDs with other underlying assets.

8.4 In order to open an Account, a Client needs to fill out the PRIMUS AFRICA online application form, which can be found in the Company's website. At the end of this form, the following documents must be uploaded:

8.6 In the event that the above documentation is not provided in the said period the funds will be send back to the source of funding. The Client will not be able to enter into any transaction of trading nature and his MT4 will be placed in a read-only mode until his KYC documentation is provided to the Company and his trading account is approved.

8.7 If the Client is unable to upload these documents, the documents can be sent via email following the submission of the online application form. In the event that the Client cannot send the necessary documents by email, the Company will accept them by fax or post, however, email still remains the preferred method.

In this respect, PRIMUS AFRICA will bear the costs associated with settling the negative Account balances to NIL. However, it should be noted that the Company reserves the right to unilaterally lift this protection and recover the negative balance from the future deposits of Clients who are repeatedly employing high risk trading strategies i.e. overleveraging, with a result their account to close negative in more than one time.

8.9 If the Client has opened more than one Account, the Company shall be authorised to consider and treat these different Accounts as a single unit. Among other rights that the Company has in the way of handling these Accounts, is the transferring of funds between Accounts to cover possible negative balances, of any of these Accounts, without this affecting in any way the right of the Company to terminate the Account or close all Client’s open positions.

8.10 Any funds received in a currency for which the Client does not hold a sub-Account shall be converted by the Company into the Client’s Account Base Currency. The conversion will be made at the exchange rate prevailing on the day and at the time when the relevant funds are at the disposal of the back-office department of the Company. - The Company may pay commission – or any other related fee – to a third party as a result of introducing the Client.

17.2 The Company takes adequate steps to properly identify and resolve conflicts of interest.

17.3 The Conflicts of Interest Management Policy, available on the website of the Company, aims to ensure that the Company's Clients are treated fairly and at the highest level of integrity and that their interests are protected at all times.

18. COMMUNICATION BETWEEN THE CLIENT AND THE COMPANY – CLIENT'S ORDERS

18.1 All notices and communications supplied by the Company in conformity with this Agreement, including Account statements and Transaction confirmations, may, at the Company's discretion, be sent to the Client by e-mail or made available in the Client's Account on the Trading Platform.

18.2 All notices/information provided by the Company or received from the Clients should be in English. Translation or information provided in languages other than English in our website is for informational purposes only and do not bind us or have any legal effect whatsoever; we have no responsibility or liability regarding the correctness of the information therein.

18.3 Such notices/communications shall be deemed to have been received by the Client and transmitted in the proper manner once the Company has placed them on the Platform or sent them by e-mail. The Company shall not be liable for any delay, modification, re-routing or any other modification that the message might undergo after being sent by the Company.

18.4 The Company shall accept the following communication methods used by the Client to contact and transmit instructions to the Company:

- orders placed in the Trading Terminal of the Client;
- orders placed in writing and duly signed;
- orders placed by telephone; and
- orders placed by live "chat".

18.5 The Client is given the option to place with the Company the following Orders for execution:

- The Client places a "Market Order" which is an Order instantly executed against a price that the Company has provided. The Client may attach to a Market Order a Stop Loss and/or Take Profit. Stop Loss is an Order to limit Client's loss, whereas Take Profit is an Order to limit Client's profit.
- The Client places a "Pending Order", which is an Order to be executed at a later time at the price that the Client specifies. The Company will monitor the Pending Order and when the price provided by the Company reaches the price specified by the Client, the Order will be executed at that price or the first available price. The following types of Pending Orders are available: Buy Limit, Buy Stop, Sell Limit and Sell Stop. The Client may attach to any Pending Order a Stop Loss and/or Take Profit.
- The Company will cancel any Orders that remain non executed for three months from the date the Order was placed.

18.6 The Client will have the right to change the communication method he uses with the Company at any time and the Company shall not make any checks in relation to this, and accepts these two communication methods.

18.7 The Client confirms that he is aware of the risks associated with using these communication methods, in particular the risks that could result from a fault or a misunderstanding at the time instructions are transmitted. The Client declares that he assumes responsibility for all consequences that could result there from.

18.8 The Company shall not incur any liability by refusing to carry out orders given by a person whose identity has not in its opinion been sufficiently verified.

18.9 The Client shall be responsible for all orders and for the accuracy of all information sent via Internet following the use of the Client's name, his password or any other personal identification method set up to identify the Client, regardless of who the actual user is. Any person who identifies himself in accordance with the Client's identification methods shall be considered as being authorised to use the Company's services. The Company shall consider such orders or communications as having been authorised and issued by the Client. It is the Client's responsibility to keep passwords confidential and to prevent unauthorised use of his passwords and his Trading Terminals.

18.10 For the orders placed in writing, the Company will verify the Client's signature with the sample signatures lodged with the Company. The Company shall not be liable for any fraud and/or lack of identification that it has not been discovered.

18.11 Prior to any transfer order, the Company may request an original written confirmation duly signed by the Client.

18.12 For orders placed by telephone, the Company will verify the Client's identity and then transmit the order. The Company has the right not to transmit the order if the actions of the Client are not clear and do not include all the required data.

18.13 Orders received by the Company in any means other than through the Trading Platform, will be transmitted by the Company to the Trading Platform and processed in the same way as though it was received through the Trading Platform.

18.14 Any order sent by the Client via the Trading Platform shall only be considered as having been received, and shall not constitute a valid instruction and/or a Contract between the Company and the Client, until the instruction has been registered as executed by the Company and confirmed to the Client by means of a Transaction confirmation.

18.15 The Company bears no responsibility for delays or errors occurring during the transmission of orders or other communication messages via computer, for the accuracy of information received via computer or for any loss that may be incurred by the Client as a result of the inaccuracy of this information.

18.16 The Client has the right to use a Power of Attorney to authorise a third person (representative) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement. The Power of Attorney should be provided to the Company, accompanied by all the requested identification documents of the representative. If there is no expiry date, the Power of Attorney will be considered valid until revoked by a written termination by the Client.

18.17 The Company has the right to refuse to transmit a Client's order for execution without giving any notice and/or explanation to the Client. Among, but not limited to, the cases that the Company is entitled to do so are the following:

- If the Client does not have the required funds deposited in the Company's Client Account;
- If the order violates the smooth operation of the Trading Platform;
- If the order aims at manipulating the market of the specific Financial Instrument;
- If the order is a result of the use of inside confidential information (insider trading); and
- If the order aims to legalise the proceeds from illegal acts or activities (i.e. money laundering).

18.18 The Client needs to be aware that the Company will refuse to accept or it may cancel any orders placed and/or executed via the Trading Terminal without any notice if it comes to its attention that the logic behind those orders is to abuse the whole system (i.e. use of specific expert advisors to generate volume by opening and closing positions at the same price) in order this way to gain unfairly benefits for the Client and which is beyond the traditional scope of fair trading.

18.19 The Company, at its own discretion and without notice, might impose on an account or instrument basis a limit on the Net Open Position. The company has the right to reject to open any new positions if the result after opening the positions would increase the Net Open Position of a certain instrument above the limit set.

18.20 Please note that it is within the rights of the company and without any prior notice to the client to set an instrument in a close only mode. Therefore the client consents and acknowledges that he/she will not be able to open new positions on a certain instrument but only to close the existing ones.

18.21 The Client understands that reports and confirmations of order executions, cancellations or modifications may be erroneous for various reasons. Such confirmations are also subject to change at the Company's discretion, in which case the Client shall be bound by the actual order execution, so long as it is consistent with the Client's order. In the event that the Company confirms an execution or cancellation in error and the Client unreasonably delays in reporting such an error more than 24 hours, the Company reserves the right to require from the Client to accept the trade, or remove the trade from the Client's Account, in the Company's sole discretion.

19. TRANSFER OF FUNDS

19.1 The client may fund his Account by credit or debit card, wire transfers or SEPA transfers, e-wallets payment processors or any other similar method of money transfer acceptable by the company from time to time, in its absolute discretion. The Company shall bear absolutely no responsibility regardless of the circumstances for any such payment providers failings thereof and/or any losses that took place or might take place in the future as a result of using the above services. We do not guarantee that all the transfer methods are available to be used in your country.

19.2 The third parties used in the process of receiving your remitted funds in our Client Bank Accounts are disclosed in the "Deposits and Withdrawals" section in our website.

19.3 The Company shall inform the Client of the bank details of the Company's segregated Client Bank Account for transferring funds.

19.4 The Client must clearly specify his name and all required information, in accordance with international regulations related to the combat against money laundering and terrorism financing, on the payment document. It is the Company's policy not to accept payments from third parties to be credited to the Client's Account.

19.5 Any amounts transferred by the Client to the Company's Client Bank Account or received in any other forms as specified above, will be deposited in the Client's Account at the value date of the received payment

and net of any deduction/charges incurred by the transferring bank. It is at the Company's sole discretion to return back to the Client any of the fees he incurred in effecting a deposit into his Account.

19.6 The Company has the right to refuse a Client's transferred funds, including but not limited to the following cases:

- If the funds are transferred by a third party;
- If the Company has reasonable grounds for suspecting that the person who transferred the funds was not a duly Authorised Person; and
- If the transfer violates South Africa legislations.

19.7 If any of the above cases occur, the Company will return the received funds back to the remitter using the same method as they were originally received.

19.8 By signing this Agreement, the Client gives his consent and authorises the Company to make deposits and withdrawals from the Client Bank Account on behalf of the Client, including but not limited to, for settlement of Transactions performed by or on behalf of the Client, for payment of all amounts due by or on behalf of the Client to the Company or any other person.

19.9 The Client, using the Company's relevant "Fund transfer request", shall provide the Company with his personal bank account details in order for PRIMUS AFRICA to transfer any amount payable to the Client. It is the Company's policy to transfer all amounts directly to the Client's personal bank account or card from which he had used to originally fund his Account. Funds are transferred by the Company within three (3) Business Days from the date they are debited from the Client's Account. It may take up to five (5) Business Days for funds to be credited to the Client's personal bank account after initiation of the transfer from the Company's side.

19.10 The Company has the right to suspend or cancel the Client's instructions for transferring funds in any, but not limited to, the following cases:

- If the Client instructs the Company to transfer the funds to a third party;
- If the Company has reasonable grounds for suspecting that the person who gave the transfer order was not a duly Authorised Person; and
- If the transfer violates the local laws and regulations.

20. SAFEGUARDING OF CLIENT'S MONEY

20.1 Unless otherwise agreed with you in writing, the Company will deal with any funds that we hold on your Account in accordance with the relevant provisions of "Safeguarding the Clients' Money" that are provided in the applicable FSCA's legislation. All amounts handed over by the Client to the Company or which the Company holds on behalf of the Client, for the provision of Investment Services, shall be held in the name of the Client and/or in the name of the Company on behalf of the Client in a Client Bank Account. This means that your funds will be segregated from our own money and cannot be used in the course of our business.

20.2 PRIMUS AFRICA may hold your money and the money of other Clients in the same Client Bank Account (omnibus account). In this case we are able to identify your money through our back office and accounting system.

20.3 The Company aims to hold your money only in SARB regulated financial institutions which employ and have Client Money rules similar to ours and which are supervised by regulatory authorities of equivalent

status to ours. In the event that we may hold Client Money outside the Republic, the legal and regulatory regime applying to any such financial institution will be different from that of the SARB and in the event of the insolvency or any other analogous proceedings in relation to that financial institution, your money may be treated differently from the treatment which would apply if the money was held with a financial institution in an account in the Republic.

20.4 We do not hold Clients' Money in unregulated financial institutions. We may, however, pass on Clients' Money to any regulated third party (e.g. a bank, a market maker or liquidity provider, merchant, e-wallet, intermediate broker, OTC counterparty or clearing house) to hold or control in order to effect a Transaction through or with that person or to satisfy your obligation to provide collateral (e.g. initial Margin requirement) in respect of a Transaction. We carry out annual risk assessments of all regulated third parties we work with, but have no responsibility for any acts or omissions of any regulated third party to whom we pass money received from you. The regulated third party to whom we pass money may hold it in an omnibus account and it may not be possible to separate it from our money, or the third party's money depending on the third party's regulatory provisions. In the event of an insolvency or any other analogous proceedings in relation to that regulated third party, we may only have an unsecured claim against the regulated third party on behalf of you and our other Clients, and you may be exposed to the risk that the money received by us from the regulated third party is insufficient to satisfy the claims of you and all other Clients with claims in respect of the relevant account. The Company accepts no responsibility for any funds not deposited directly into the Company's bank accounts, for losses (directly or as a result of) due to delays and/or failures to deposit/remit funds through affiliated and/ or third parties.

20.5 As long as the Margin required on the Client's Account for maintaining her open Transactions with PRIMUS AFRICA, the Client agrees that the Company has the right to transfer ownership of this Margin from the Client to the Company, to be maintained by the latter as security and be returned by the Company to the Client on closing of the Client's Transactions. In this case, the Margin will be considered as a debt due by the Company to the Client and not as Client Money, therefore it could be used by the Company subject to the repayment obligation.

20.6 Client Money are kept off balance sheet and cannot be used to pay back the Company's creditors in the unlikely event of the Company's default. In addition, the Company will not be liable for any failure or insolvency of any bank and/or financial institution in which Client Money are held, however, applicable investor compensation or deposit protection schemes may protect a proportion of the money in default.

21. ANTI-MONEY LAUNDERING PROVISIONS

21.1 According to The Financial Intelligence Centre Act (FICA) the Company is entitled to request from the Client to provide immediately any additional information concerning the circumstances and the context of a particular Transaction. PRIMUS AFRICA shall have the right refuse orders or instructions received from the Client as long as the Client has not supplied the information requested by the Company.

21.2 The Company has the right to terminate the Agreement with the Client immediately and to prohibit the Client from withdrawing any of its assets if the explanations provided are deemed inadequate.

22. PROHIBITED TRADING

22.1 Generally speaking, the Company allows all types of trading methods and styles. The Company does reserve the right, however, to close, suspend or recoup any closed profit and loss from an Account it deems is engaging in unethical or questionable trading styles including, but not limited to abuse of price gaps, latency arbitrage, the act of “flooding” of our servers with an excessive amount of pending orders, excessive logins, “picking” and “sniping”, overleveraging or the use of certain automated trading systems or Expert Advisors, without notice.

22.2 The Company will usually (but is not obligated to always) attempt to initially express its concern to the Client or the associated parties via email or telephone in the form of a formal warning. If the Client or the associated party does not modify its trading style within a reasonable time period following the warning, the Company reserves the right to liquidate all or some open positions, close, suspend or recoup any closed profit or loss from the Client's Account, and return any remaining proceeds to the Client in accordance with the Company's Account Closing Procedures or any combination thereof.

22.3 Fixed and Variable Spread Accounts are offered to Clients that adopt long term trading strategies instead of trading news' announcements or other volatile market conditions. The Company reserves the right, at any time, to revoke a Client's right to trade with Fixed or Variable Spreads and may require the Client to move under an ECN premier Spread type Account.

22.4 The Company reserves the right to liquidate all or some open positions, close, suspend or recoup any closed profit or loss from Accounts who tend to trade during news or other volatile market conditions, and return any remaining proceeds to the Client in accordance with the Company's Account Closing Procedures or any combination thereof. Any transaction costs relating to the refund of the Account balance of Clients engaging in prohibited trading will be fully transferred to the Client.

23. SWAP, CFD EXPIRATION AND SWAP-FREE ACCOUNTS

23.1 The Client will generally incur a credit or debit in his Account if holding a currency, bullion or CFD position at the end of each trading session. You may view current swap rates on the Company's Trading Platform, and further information about Swap at the Company's website.

23.2 Once a month, certain CFD's will expire, meaning that expiration will take place one day prior to the expiration of its underlying futures Contract at our closing bid/ask price. All open positions will be closed, all floating profit and loss will be realised and all pending orders will be deleted. No positions will be rolled forward into a new Contract and is at the option of the Client to reinstate her closed positions.

23.3 Swap-Free (Islamic) Accounts can be offered to our Clients of Muslim faith at the discretion of the Company. A swap-free Account precludes the Account from either being credited or debited swap interest at the end of each trading session. Open positions which are kept longer than 5 trading days will no longer be eligible for swap-free designation, as such a debit or credit will be applied to these trades on a daily basis upon keeping them open for more than 5 trading days. To avoid swap interest being applied on the Client Account, the Client has the option to close and open a new position before the 5 trading days pass. The Company, however, fully reserves the right to remove the swap-free designation from any Account which is holding a position in which

the Client owes interest for over 5 trading days and charge swap interest retroactively in case it comes to our attention that the 5 trading days period has been abused. The Company may notify the Client within 24 hours of removal of the swap-free designation, but is not required to notify the Clients of such removal.

24. CLIENT COMPLAINTS

24.1 The Client shall be required to check the content of each document, including those sent electronically by the Company or made available to the Client on the Trading Platform. It should be noted that the use of an expert advisor or any other program that is used to perform technological and/or algorithmic trading, also alleviates you of any right to claim any sort of compensation from the Company.

24.4 Once this period has expired, the Client shall no longer have any rights, of any type and form, against the Company.

24.5 The document entitled Complaint Form, available in the members' area, should be used for any complaint a Client may have. The Client may complete the Complaint Form with all the information requested and may return the form to the Company as mentioned in the specific document.

is unable to conclude on the Client's complaint within the above period, the Company will notify the Client by telephone or by e-mail about the extension of the investigation terms.

25.2 The Client accepts the absolute seniority of server log—file records against any other sources, including Client terminal log—file records, in the context of handling of her complaint.

25.3 The Company should compensate the Client in case of his complaint deemed to be fair and accurate, by exclusively depositing the compensation amount in the Client's Account with the Company.

25.4 In the event the Company deems necessary to delete one or another of the Client's tickets, such tickets should be removed from the Client's Trading Terminal, and the Client's Account balance and/or Equity should be adjusted by the summarized value of profit/loss and rollovers related to such tickets.

25.5 In the event the Company deems necessary to restore one or another of Client's tickets, such tickets should be re-established in the Client's Trading Terminal; and the Client's Account balance and/or Equity should be adjusted by the summarized value of profit/loss and rollovers related to such tickets using the current market prices prevailing for such tickets.

25.6 Clients may report to the FAIS Ombudsman any disputes with the Company that may have been unresolved to the Clients' satisfaction.

26. REJECTED COMPLAINTS

It will be the Client's responsibility to take all necessary action to ensure that he is able to access any communications that may be sent to him.

27.2 The Client is aware of the fact that using computers and the Internet exposes him to a number of risks including, in particular:

- The possibility that the relationship between the Client and the Company might be revealed;
- The possibility that computer viruses might infect the Client's computer system without the Client's knowledge; and
